

Jacob's Lake Grant-in-aid Snowmobile Trail: Funded Damage by Reservoir Riders Snowmobile Club, St. Louis County

The Reservoir Riders snowmobile club has a long history of using grant-in-aid funds to perform trail work without and/or in violation of county permits that continues unchecked to result in extensive damage to forests and wetlands on county land. Without consequence, illegal trail work performed by the club and funded by the DNR's Snowmobile Trails Assistance Program, continues to occur. In the "before and after" photos below one can see the original grant-in-aid snowmobile trail and the bulldozed trail exceeding the permitted 20" width.
